14 CFR Part 71

[Docket No. FAA-2012-0013; Airspace Docket No. 12-ASO-13]

Amendment of Class D and E Airspace; Brooksville, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule, technical amendment

SUMMARY: This action amends Class D and E airspace at Hernando County Airport, Brooksville, FL. The geographic coordinates of the airport are being adjusted to coincide with the FAA's aeronautical database, which shows the correct coordinates. This does not affect the boundaries or operating requirements of the airspace.

SUPPLEMENTARY INFORMATION:

History

The FAA is adjusting the geographic location of Hernando County Airport, Brooksville, FL, to be in concert with the FAAs aeronautical database, which shows the correct coordinates. This is an administrative change and

does not affect the boundaries or operating requirements of the airspace, therefore, notice and public procedures under 5 U.S.C. 553(b) are unnecessary.

The Class D and E airspace designations are published in Paragraphs 5000, 6002, and 6005 of FAA order 7400.9V, dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 amends the geographic coordinates in the legal description of Class D airspace, Class E surface airspace, and Class E airspace extending upward from 700 feet above the surface, for Hernando County Airport, Brooksville, FL. This update brings the geographic coordinates of the airport in concert with the FAA's Aeronautical Products database.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Hernando County Airport, Brooksville, FL.
